EXPERIENCE

Sogeti USA | June 2022 - February 2023

User Experience Associate Consultant

- Led usability evaluation of an early proof of concept built on Microsoft Cloud for Healthcare.
- Contributed as the product owner, collaborating with an offshore development team to create two new minimal viable products to be presented to potential clients.

BioMedware | September - December 2021

User Experience Design Intern

- Conducted user discovery interviews to inform low to mid fidelity mock up of new geospatial analysis software.
- Collaborated with other departments to modify company branding style guide.

Engage Concept | September - November 2021

User Experience Designer

- Developed mid fidelity prototype for K-12 educational responsive web app informed through user interviews and competitive analysis.
- Performed user testing to iterate through versions.

University of Michigan | May - August 2021

User Experience Analyst Intern

- Designed new webpage for automated workflow through user interviews and collaboration with software engineers.
- Conducted research on ticket accuracy handling and designed new program for service center ticket quality checks.
